RE: Visitation Guidance Updates

Dear Residents and Families,

We know this has been an extremely difficult year, especially with not being able to visit with your loved ones in person due to the COVID-19 health safety protocols put in place by the Centers for Medicare and Medicaid Services (CMS) last March.

We are pleased to share that we have recently received revised visitation guidance from CMS that now takes into consideration COVID-19 vaccination. We are currently reviewing the detailed guidance to better understand the full extent of visitation options allowable with the new guidance, and we will be updating our visitation procedures accordingly.

As soon as our review of this new guidance is complete, we will provide you with another update on our visitation procedures. This information will be available under our Newsletter/COVID-19 tab on our website www.clarksvilleskillednursing.com.

Thank you for your patience and understanding. We look forward to sharing our updated visitation procedures with you in the very near future.

Sincerely,

Heather Sells, MSW, LNHA
